Mysuru to get 2 new FLYOVERS

- JLB Road, Vinoba Road identified for constructing flyovers to check traffic hurdle
- PWD conducting soil test, survey to prepare DPR

Mysuru, Oct. 31 (RK&BS)- If all goes according to the plan, the cultural capital Mysuru may get two new flyovers to ease of traffic flow. Public Works Department (PWD) has been mulling over to build flyovers on two prominent roads — JLB Road and Vinoba Road (Hunsur Road) — in city on the lines of Bengaluru, where flyovers have come in handy in addressing major traffic bottlenecks.

Reasons aplenty

Mysuru, being a prominent tier-II city, is witnessing a rapid growth, with the borders of the city growing beyond over 40-km long Outer Ring Road (ORR) junction. Also the rise in traffic density and the rate of accidents along with the spurt in population growth are truly the matters of concern.

Hence, plans are on the anvil to construct flyovers, which if realised, may take the total number of flyovers here to three, with Hinkal junction on Hunsur Road already connected by a flyover, albeit for a shorter distance.

Workers digging earth to collect samples for soil test in view of flyover works on Vinoba Road in city.

This was also the first flyover built in Mysuru, seven years ago in 2018, by Mysuru Urban Development Authority (MUDA), now rebranded as Mysuru Development Authority (MDA), to check traffic pile ups and accidents.

Two roads

It has been intended to build flyovers on Jhansi Lakshmi Bai (JLB) Road and Vinoba Road. On JLB Road, the flyover will be built from Babu Jagjivan Ram Circle in front of City Railway Station, passing via Ramaswamy Circle and Yelethota to Nanjangud Road junction (near JSS College).

On Vinoba Road (Hunsur Road), the flyover will be built from Field Marshal K.M. Cariappa Circle (Metropole Circle) to Hinkal via Valmiki Circle (Paduvarahalli junction) and Aishwarya Petrol Bunk junction.

Dy.CM to become... CM?

Sources say

D.K. Shivakumar may be sworn-in as Chief Minister on Nov. 21 or 26

Bengaluru, Oct. 31 (KMS & BS)- Amid buzz over change of guard in the State, Deputy Chief Minister D.K. Shivakumar is likely to succeed Chief Minister Siddaramaiah.

If the sources are to be believed, Shivakumar may take oath as the 34th CM of Karnataka either on Nov. 21 or 26.

That Shivakumar being a theist, the head of a Mutt in Tumakuru district, whom Shivakumar strongly believes in, has fixed the auspicious time for the schedule, marking four different dates including Nov. 21 and 26, to assume office as CM.

D.K. Shivakumar

Siddaramaiah, as a CM will be completing two-and-a-half years in office on Nov. 20, lending credence to the rumours about the power sharing pact reached between the two top leaders, when the party rose to power with a resounding majority in 2023 Assembly elections.

House burgled in Dattagalli

Miscreants make away with gold and silver articles worth about Rs. 1 crore

Mysuru, Oct. 31 (RK&VNS)- An incident of miscreants breaking open the front door of a house and making away with gold jewellery and silver articles worth about Rs. 1 crore has come to light in city.

The incident occurred at a house belonging to one Vinay Kumar, a software engineer, residing at Kanakadasanagar 'J' Block in Dattagalli 3rd Stage.

On Oct. 20, Vinay along with his wife and children had left for Chikkamagalur to attend a family function and returned on Oct. 21 at 3 pm.

To his shock, Vinay saw the front door open. Upon entering the house he saw valuables kept inside a wardrobe in the bedroom stolen.

About 700 grams gold jewellery — four long chains, three jewellery sets, five sets of bangles, eight ear rings, 10 finger rings and 3 kg silver articles — were found missing.

Immediately, Vinay informed Saraswathipuram Police, who arrived with the dog squad and finger prints experts and conducted mahazar.

BABU'S BANTER

By M.V. Nagendra Babu

EDITOR'S BOTTOMLINE

LITTER BUGS: It can look like garbage and act like garbage but litter is something different — garbage placed where it shouldn't be. As popular as this activity is among us Indians we were aghast to learn that a lady walking about outer London was fined £150 for it. All she had done was pour the last of her coffee down a drain. She hadn't even thrown her mug in. It was reusable. Nearer us, in Singapore littering fines can go up to S$2,000 — and to S$10,000 beyond the third conviction. If our governments went about fining litterers so liberally, the collection could put GST revenues to shame.

Why are Indians so fond of littering? We see a choking river, we worsen its misery. We see a pristine one, we introduce it to plastic bags, paper napkins, rubber chappals. Sometimes we throw the half-eaten burger right next to a wastebin. My one chewing gum wrapper won't make a difference, our demon self whispers. Except it's joined by a hundred, thousand, million others and it makes all the difference.

We love to holiday in Japan but guess what helps make it so holidayable? People carry their trash home rather than spray it about. We cleaned our homes thoroughly on Diwali but spread its detritus across our parks and streets. Cleaning all that is someone else's job, we think. But if we want to live in a clean society, we too have to stop doing the dirty. — *In The Times of India*

Phone case curbs phone addiction

New York: A startup has created a 6-pound smartphone case that is so heavy and cumbersome to use that it should limit most people's screentime by around half.

Smartphone cases are usually light and slick by design, but Matter Neuroscience decided to go the opposite way, creating perhaps the heaviest and chunkiest phone case money can buy. There was a purpose to their madness, however, as they were trying their best to create the most inconvenient smartphone case in order to make the handheld as difficult to use as possible.

The stainless steel phone case weighs a whopping 6 pounds (2.7 kg), heavier than a 16-inch MacBook Pro laptop and consists of two separate pieces that screw together around the phone. The stainless steel smartphone case doesn't fit in your pocket and becomes incredibly hard to use the more you check your phone. It's this physical fatigue that naturally reminds the user to put the phone down.

This water helps reduce abdominal fat!

Tokyo: A Japanese drink company has launched a functional drinking water that can reportedly reduce abdominal fat.

This 'Special Water' looks like regular mineral water but is officially classified as a "functional food," meaning it's a food product legally permitted in Japan to advertise health benefits. Special Water is aimed at office workers and those with irregular lifestyles who struggle with body fat accumulation because it can allegedly help reduce abdominal fat, especially visceral fat. The new product contains HMPA (3-(4-hydroxy-3-methoxyphenyl) propionic acid), a small-molecule metabolite derived from fermented rice bran that can help reduce abdominal fat.

According to official clinical trial data, continuous HMPA intake can improve abdominal fat distribution in individuals with high BMI.

REALLY...?

- *Queen Elizabeth had a legendary sweet tooth, but unfortunately, all the years of eating sugary treats caused her teeth to turn black. Since the monarch was a major influencer of her time, other women decided to black out their teeth to copy their queen's smile. This weird history fact is definitely a case for being thankful for modern dentistry and toothpaste.*

Dangerous crawling...

Sir,

On the morning of Oct. 26, I was shocked to witness two men dangerously crawling on a hoarding along JLB Road, attempting to cover it with a black canvas. They were risking their lives merely to earn daily wages.

The advertiser or agency responsible for this billboard appeared to have shown complete disregard for the safety of its workers.

There were no safety belts, harnesses or any precautionary measures in place. A simple use of a crane could have ensured the task was carried out safely and efficiently.

It is deeply disturbing that even today, human life is treated with such callous indifference in the relentless pursuit of profit.

Nanjangud, Oct. 31 (CM&KS)- Nanjangud Police have solved a case of chain-snatching and stabbing incident by exposing the murder plot by a woman to kill her husband with the help of her brother and his accomplices. The Cops have arrested four accused in this case.

The accused had staged a chain-snatching drama during which they had stabbed the man in a bid to kill him and had fled from the spot.

Pending power bill: Visually challenged woman suffers CESC personnel's 'wrath'

Mahadevamma

Nanjangud, Oct. 31- An octogenarian visually challenged woman was allegedly assaulted by the lineman and Assistant Executive Engineer (AEE) of Chamundeshwari Electricity Supply Corporation (CESC) Ltd., over the pending electricity bill. The woman shared her ordeal while being treated at a hospital, the video of which has gone viral on social media.

Mahadevamma, aged 85 years and resident of Chikka Homma village in Nanjangud taluk is that woman. Mahadevamma, who stays alone at her home, is a beneficiary of Bhagya Jyoti scheme, under which, she has got a free electricity connection. However, her grandson had allegedly diverted the power supply to his house illegally. Following which, she had received an electricity bill for Rs. 5,000.

When CESC personnel went to her house to disconnect power, insisting the latter to pay the bill, she pleaded with them, allegedly to face the wrath of the CESC staff. She was later treated at Chamarajanagar Institute of Medical Sciences (CIMS) Hospital, where she shared her agony, the video record of which has moved many on social media.

AEE clarifies

AEE Kiran Kumar, who is facing the charges of assault, outrightly rejected the charges made against him. He clarified that Mahadevamma's grandson has drawn illegal power connection from her house, by installing a meter without a number.

"I also visited the village, during which Mahadevamma has said she wasn't assaulted, but sought time to clear the bill. Despite this, the power supply was stated to be cut. But, the power supply to her house has been restored," clarified Kiran Kumar.

Cyber crimes: State Cops sharpen probe skills with Bavarian help, says ADGP

Passing out parade of ninth batch of probationary Women Police Constables

FROM LEFT: *Principal of Police Training School (PTS) Geetha Prasanna, DCP (Law and Order) R.N. Bindu Mani, DIGP (Southern Range) Dr. M.B. Boralingaiah, ADGP (Training) Alok Kumar, ADGP - Bavaria, Germany, Manfred Gigl, Additional SP Ralf Eireiner and Deputy Director of Karnataka Police Academy (KPA) S.L. Chennabasavanna seen during the passing out parade of probationary women Police Constables at PTS Parade Grounds in city this morning.*

Mysuru, Oct. 31 (MTY&BS)- Additional Director General of Police (ADGP), Training, Alok Kumar has said, following the spurt in cyber crimes in the recent days, the State Police are being trained with the help of Bavarian delegates from Germany.

Alok Kumar was addressing the gathering during the passing out parade of 9th batch of probationary Women Civil Police Constables at the Parade Grounds of Police Training School (PTS), Jyothinagar in city this morning.

"Digitalisation has changed the pattern of crime with the perpetrators operating the racket from the comfort of their homes. Despite the increase in number of internet users and people being aware of the pitfalls they have to come across, still some among them are falling prey to cyber crime," rued the ADGP citing the reasons for seeking foreign expertise to equip investigation skills to trace the cases.

Of late, women Police probationers are being trained on par with men, gradually doing away with what was perceived as a gender bias, in the guidelines framed for foundation training of men and women Police. All the 246 women Police probationers are trained like men, unlike how the women Police probationers were trained in compliance with a manual different from that of their men counterparts. Be it training on Self Loading Rifle (SLR), push up, arms, bike riding, indoor and outdoor training, the women are being provided training equal to that of men.

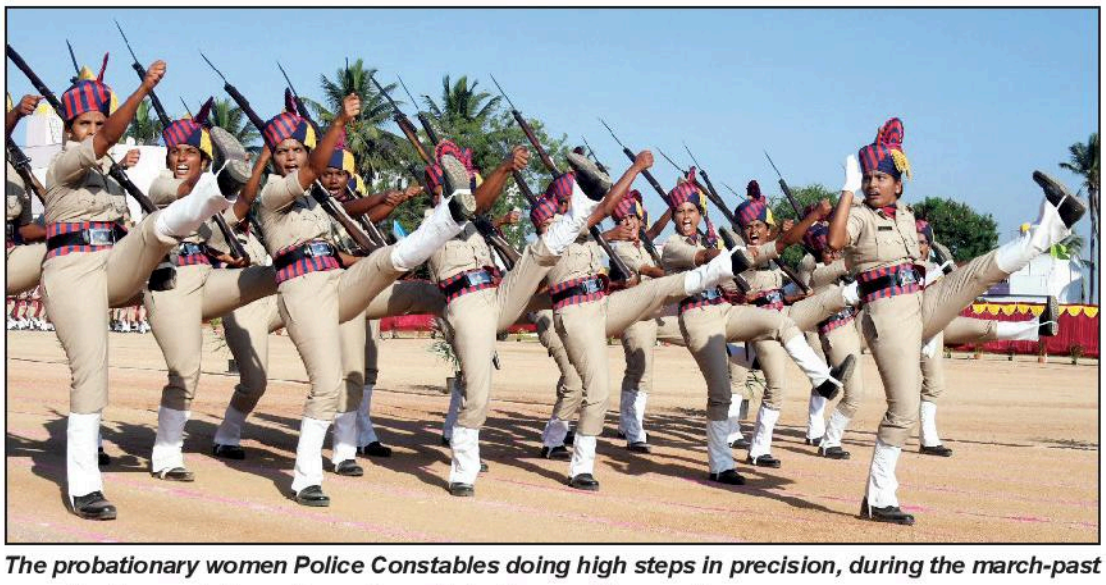
Saying that Karnataka State was first in the country to announce one-day menstrual leave without any pay cut for women employees every month, ADGP Alok Kumar said, in the coming days, the family members of women Police personnel will be counselled during their marriages. The in-laws will be counselled, to educate them about cooperating with their daughters-in-law working in the Police, who will be attending to challenging tasks, sometimes working for late hours.

"Prior to joining Police force, you may have had both better and bitter experiences at Police Stations. But whenever anybody comes to the Station you should be cordial and treat them with a service motive," he said.

He suggested them to continue with fitness related exercise, as women are more prone to ailments compared to men.

Stressing on staying away from corrupt practices, Alok Kumar referred to the latest case, where a former top official of a private company had shared his unsavoury experience about how he had to grease the palms of Police, to get the reports of his deceased daughter. He asked the Police to keep the honour of the letter of acknowledgment they sign during recruitment, against taking part in any corrupt practices. If such was the case of a former top official, what about the fate of the common man? asked Alok Kumar.

DIGP (Southern Range) Dr. M.B. Boralingaiah, DCP (Law and Order) R.N. Bindu Mani, Principal of PTS Geetha Prasanna, ADGP, Bavaria, Manfred Gigl, Additional SP Ralf Eireiner, Deputy Director of Karnataka Police Academy S.L. Chennabasavanna and others were present.



The probationary women Police Constables doing high steps in precision, during the march-past organised as part of passing out parade in Mysuru this morning.

Mysuru to get 2 new Flyovers

(Continued from page 1)

Survey, soil test

As a preliminary task, the PWD engineers have been conducting soil tests by collecting samples after digging earth on a stretch of roads identified for flyover project. That apart, a survey is being carried out with the help of video recordings to mark the spots for building underpasses, overbridges, entry and exit points. The trees and street lights that are required to be removed along with other cables are also being marked during the survey.

DPR in preparation

The engineers are working towards preparing the Detailed Project Report (DPR) including the estimated cost and the timeframe for completing the works, not to ignore the heritage buildings and commercial buildings that dot these roads and the technical hurdles and other points. The proposal will be submitted to the Government after collecting the opinions of local MP, MLAs, MLCs and the public concerned.

Hinkal junction

The flyover at Hinkal junction, which once witnessed heavy traffic snarls, has proven advantageous in addressing the related issues. The traffic signals on both JLB Road and Vinoba Road are comparatively more, which grows by manifold during Dasara every year, one among the several reasons to identify them for the need of flyovers.

Once the flyovers are commissioned, the vehicles coming from Mangaluru, Madikeri, Hassan and neighbouring Kerala State can reach the heart of the city without any risk. So also the localites, who have been the major victims of traffic related hurdles.

Similar plans

It may be recalled, though flyovers were also planned at Manipal Hospital junction on Mysuru-Bengaluru Highway, entry point of Vijayanagar Fourth Stage, Bogadi Circle junction and KEB junction at Dattagalli, the project has been delayed for reasons better known to those who matter.

Dy.CM to become CM?

(Continued from page 1)

As the days of transition of power draws closer, Shivakumar is moving cards close to his chest, meeting the top brass of the party in New Delhi, in the name of personal engagements, twice or thrice, in the last two months.

Following the assurance of Congress supremo Sonia Gandhi, Priyanka Gandhi Vadra and other top leaders, the much relieved Shivakumar is preparing ground to fulfil his long awaited dream of adorning the CM's chair. About two to three days back, Shivakumar had air dashed to Delhi, which has further cemented the possibilities of change in power corridors.

Interestingly, the profile of Shivakumar, in English, has been shared on his social media handles yesterday. With the second and final phase of elections for Bihar Legislative Assembly scheduled on Nov. 11, Shivakumar will be leaving for Delhi, same day, during which, the leaders of the party will be returning to Delhi, only to take a call on the much discussed change of guard in Karnataka.

Meanwhile, All India Congress Committee (AICC) President M. Mallikarjun Kharge, has decided to accommodate new faces into the Cabinet, giving a go by to most of the Ministers in CM Siddaramaiah's Cabinet, that has left many fuming. Revenue Minister Krishna Byre Gowda's recent revelation, expressing his intent to step down, has only dropped the hint over the changes in political conditions.

Not withstanding the power tussle, the CM's supporters have already launched a campaign to see to it that, Siddaramaiah completes his full term in office for five years. However, only time will tell, whether Siddaramaiah's political wizardry will come to his rescue or that of Shivakumar's behind the screen tactics, that he has been at, ever since the party stormed back into power, in a close-knit fight with ruling BJP in the previous Assembly elections.

City Congress pays tribute to

The Congress also paid homage to former Deputy Prime Minister late Sardar Vallabhbhai Patel on the latter's 150th birth anniversary. Kodagu District In-charge Minister N.S. Boseraju, City Congress President R. Murthy, District President Dr. B.J. Vijaykumar, Congress leaders and members were present.

House burgled

(Continued from page 1)

A case has been registered at Saraswathipuram Police Station. The Police have also collected CCTV camera footages from houses located in area and are examining. The Police have formed teams to nab the miscreants. Sources said that one of the teams had also visited Madhya Pradesh suspecting the miscreants to be hiding in the State.

Speaking to *Star of Mysore*, Vinay said that he had kept the gold jewellery and silver articles at his house for the construction of his new house and added that apart from his personal jewellery, he had also borrowed gold and silver articles from his relatives.

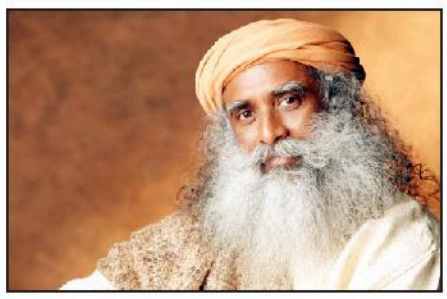
MYSTIC'S MUSINGS



By Sadhguru - Founder, Isha Foundation

Inner Perception

Man has spent too much time trying to think about things to which he has no access. When you try to think about that which you have no access to, towards which you have no **perception,** all you can do is speculate.

When you do excessive speculation without any fundamentals, it amounts to hallucination. Because of this, a large part of religion and spirituality in the world has become purely hallucinatory.

If you are really interested in knowing life in its depth, you must see how to enhance your **perception.** This moment, if you fall asleep, suddenly people around you will disappear, the world will disappear and you also disappear. You are still alive, everybody around is alive, the existence is on, but in your experience everything disappeared, because these five sense organs have shut down. Right now your whole **perception** of life is limited to five sense organs — seeing, smelling, hearing, tasting, touching. These sense organs, in the very nature of things, can perceive only that which is physical.

Anything that is not in your awareness does not exist for you; and only what you are aware of, you can handle and do things about. If you carefully examine, you will see a large part of you is not in your awareness. If you bring more into your awareness, an **inner perception** of life not limited to the five sense organs, you will see suddenly your life begins to happen on all levels the way you want it.

When I say **'an inner perception,'** I am not referring about some airy things. Let us start from the mundane. If your **perception** is beyond the senses and food appears in front of you, you can simply know how this food will behave in your system. But this **perception** is today being lost by human beings.

From something as simple as food to something like the ultimate possibility, the **inner perception** would bring a completely new dimension into one's life. All the activity that we are doing in our lives whether you are a doctor, a policeman, an engineer or whatever you are, fundamentally, your **perception** of what is right now in front of you decides the effectiveness of who you are and how much you do on this planet.

People are always asking me, 'Sadhguru, you are talking about so many subjects. Where do you get the time to read?' I say, 'I don't read.' What is there in front of me, I perceive it as it is and that is it.

There is no need to carry the burden of knowledge on your head if your **perception** is keen enough. So **perception** can be raised to various levels through certain inner instruments. 'Is it very difficult? Can I rise beyond my senses? Do I have to withdraw to a Himalayan cave to do this?'

Any human being who is willing to dedicate just a few minutes of his life per day can begin to know this. Because it is not sitting somewhere in the Himalayas, it is within you. What is within you is not inaccessible to you. You are just too busy and enamoured with what is happening outside; you never paid any attention to the inside. It is just lack of attention which has denied people this possibility.

[Sadhguru, a yogi, is a visionary, humanitarian and a prominent spiritual leader. An author, poet and internationally-renowned speaker, Sadhguru's wit and piercing logic provoke and widen our perception of life. ***www.ishafoundation.org]***

Mysuru, Oct. 31- Rajendra Kalbhavi, Secretary-General and President-Elect of Association of Consulting Civil Engineers (India) — ACCE(I) — installed the new team of office-bearers of ACCE(I) Mysore Centre for 2025-27 at a private hotel in city recently.

He administered oath of office to S.B Basavaraja (Chairman), C.S. Srikanth (Hon. Secretary), B.S. Keerthi Gowda (Hon. Treasurer) and Managing Committee Members — H.P. Sharath, Dr. H.P. Thanu, M.B. Vikram, V. Srinath and Nikhil Koundinya.

In his address, Rajendra Kalbhavi expressed deep admiration for the programmes organised by ACCE(I) Mysore Centre and complimented Team 2023-25.

Emphasising that civil engineers are the creators and movers of the world, he lamented that, unlike littérateurs, musicians and social workers who are often recognised with State honours during Kannada Rajyotsava celebrations, civil engineers are consistently overlooked.

He stressed the need for distinguished civil engineers, from every district, to be recognised and felicitated. Kalbhavi strongly felt that ACCE (I) should take the initiative to appeal to the State Government to include civil engineers for these prestigious awards.

Dr. K.S. Manjunath rendered the invocation. Outgoing Chairman Dr. S. Raviraj welcomed and thanked all the members.

Outgoing Secretary Dr. G.P. Chandradhara gave a power-point presentation on the activities conducted by the Centre during 2024-25 which included technical talks, seminars, symposia, project visits, industrial outreach programmes, counselling and practical training to civil engineering students, family get-togethers, tree-planting drives and participation in the technical events organised by the headquarters.

Hon. Secretary C.S. Srikanth proposed a vote of thanks. Ashwin Palegar anchored the programme.

WORD OF THE DAY

Truculent

Pronunciation: TRUCK-yuh-lunt (adjective)
Meaning: Truculent describes a person who is easily annoyed and eager to argue or fight. It can also describe the mood or attitude of such a person.
Origin: English speakers adopted truculent from Latin in the mid-16th century, trimming truculentus, a form of the Latin adjective trux, meaning "savage," and keeping the word's meaning. Apparently in need of a new way to describe what is cruel and fierce, they applied truculent both to brutal things (wars, for example) and people (such as tyrants). Eventually even a plague could be truculent. In current use, though, the word has lost much of its etymological fierceness. It now typically describes the sort of person who is easily annoyed and eager to argue or language that is notably harsh.
Example: "It's the holidays and strings of gaudy rainbow lights twinkle from gables. In cozy living rooms, the elders doze in their chairs while middle-aged siblings bicker and booze it up around the dining table. Little kids squirm in makeshift beds trying to stay awake for Santa, while truculent teenagers sneak out into the suburban night to do secret teenager things." — Jessica Kiang, Variety, 24 May 2024.

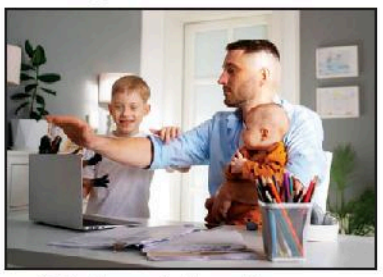
THE ODD WORD

Phiz

The human face.

PHRASE OF THE DAY

Bring home the bacon



Meaning: The phrase "Bring home the bacon" means to earn a living for family.
Origin: Like many expressions, the first ideas leading to the origin of the phrase "Bring home the bacon" can be found in medieval England, where bacon was highly prized. The phrase itself though, has been attributed to an article in an American newspaper, *The Post-Standard,* dated September 4th of 1906: "Before the fight Gans received a telegram from his mother: 'Joe, the eyes of the world are on you. Everybody says you ought to win. Peter Jackson will tell me the news and you bring home the bacon."
Example: His wife chooses not to work, so Robert has to bring home bacon.
